True Needs*

* This is the magic!
Issue: Disintermediation of the Consumer

• The future offers unprecedented data
  • A complete tracking ecosystem of consumer behaviors
  • Accessible tools and infrastructure
  • Powerful partnerships are being created – with, or without you!

• Those that control the ecosystem, own the data
  • Schemes now have dominance, with their “Pay” partners

• Retailers MUST protect their rights to consumer data
  • At least a level playing field

• Mobile and other accessible innovations lay ahead…
Serving the Customer in Their Terms

• Rethinking the consumer interface
  • Interaction anywhere
  • Any surface = consumer touchpoint
  • POS on every device or surface – even BYOD

Customer Engagement Strategies: Loyalty, Mobile & Proximity Marketing

Lesley Saitta, CEO
Impact 21
Customer Engagement 2.0 – “It’s Personal”

Creating Meaningful Moments
- Segmentation
- Lifecycle
- Message/Content
- Channel
- Program/Platform

It’s not enough to just know your customer’s behaviors and preferences in your store, you also need to understand why, when, where and how they purchase
Create ways for customers to interact with your brand, understand their preferences / behaviors and deliver on what’s important to them
Customer Engagement Through Loyalty

Many Different Types of Programs at C-Stores

- Points / Transaction based
- Tiered Levels / benefits
- Clubs; Coupons & Random Rewards
- Fuel Discount for membership
- Coalitions (Fuel, On-Line, Other)
- Card payment programs (Credit, ACH, Prepaid, Gift)
- Sweepstakes / Gamification
- Charity / Digital (email, social, mobile)

While loyalty programs generally drive visits and higher spend, many retailers believe customer engagement (1:1 Marketing) is the biggest opportunity to change behavior that drives profitability.
1:1 Marketing through Loyalty Analytics & Campaign Management is a Differentiator

- Loyalty Analytics, beyond program performance, can be a major challenge for some retailers – it’s a lot of data!

- Major outcome should be segmentation of members with similar behaviors or demographics (ex., RFM, Age)

- Campaign management solution is required to create lists and distribute targeted messages (SMS, email, etc.)
  - On demand; Scheduled; Triggered

- Don’t forget about fulfillment on the back-end if using digital/mobile coupons or special offers to members

*Analytics provides a baseline and understanding of behaviors & segmentation. Campaign management is a vehicle for 1:1 Marketing and allows retailers to target relevant messages that drive changes in behavior*
Mobile puts a Store in Everyone’s Pocket

- Payments
- Apps
- Promotions/Coupons

Retailer’s are on board with mobile because customers are!
Mobile Payments Goes Viral!

Mobile payments at retail is about convenience, security and rewards
Mobile Apps For C-Stores

Mobile apps in c-stores are growing, with new ways to engage consumers
The Use of Mobile Coupons Broadens

**Key Insights**

- **42%** Of mobile users have used a mobile coupon
- **26%** Increase in basket size when customer uses a mobile coupon
- **39%** Of customer spend more if they receive a personalized coupon
- **60%** Of customers would adopt mobile payments if offered coupons

*There is no “one size fits all” model; CPG and Retailers will continue growth as mobile strategies emerge*
Mobile Coupons in C-Stores

Key Insights

- Best day for coupons is Friday
- Highest redemption time is 4-8pm; Noon – 4pm is good too
- Recent Success Stories
  - “30 days of free” - 88,000+ store trips in a month; 24 mil offer views; $314k new revenue
  - New Mobile App - Highly targeted coupons – 3 mil views/month; 25% redemption rate; 500k store trips

Relevant & personalized mobile coupons are growing at c-stores
Proximity Marketing – Intersection of Mobile and Location

• Geo-Fencing
• Beacons
• NFC (RFID chip)
• Mobile Browser
• WiFi Hotspot

Impact of Beacons on Retail

• Will influence over $44 bil in retail sales in 2016
• 400 ml will ship in the next 5 years (mostly to retail)
• Campaigns have a click thru rate of 60% compared to 25% on email

Sources: Beaconstac.com; BBDO

“Using proximity marketing wisely, retailers will be able to play the part of a gracious, individually attentive host, combining the user’s interests, intent and physical location.”
Why Beacons?

Retailers Using Beacons

- Rite Aid – 4,500 stores
- Macy’s – All Stores 4,000 beacons
- McDonalds – 15 test stores With loyalty in Istanbul
- Target - 50 test stores Messages/trip= 2
- Walmart – Testing GE/LED bulbs with beacons
- Nordstrom – Testing Omni-Channel

With somewhat limited use in C-Stores, beacons continue to grow in other retail channels
Emerging (although already here)

Customer Engagement Technology

“Mobile and social media have brought a seismic shift in terms of customer behavior. . . . Our job is to build a framework on which you can build a digital shopper”
